

# a270m Desktop System

**Nobilis® a-Series desktops feature award-winning AMD Athlon™ processors bringing you leading edge technology and unparalleled performance.**

**Equus recommends Microsoft® Windows® XP Professional.**

## Nobilis® a270m System

The Nobilis® a270m is a powerful platform supporting both the AMD Athlon™ 64 and Sempron™ processors.

The highly integrated mainboard features integrated graphics, 10/100 LAN, 6-channel audio and IEEE1394 Firewire. An 8X AGP slot offers upgrade flexibility while 3 PCI expansion slots support the latest peripheral devices.

Quiet, reliable performance is assured when you select an Athlon 64 processor with AMD Enhanced Virus Protection for Microsoft Windows XP SP2 and Cool'n'Quiet™ technology that conserves power while enabling a whisper-quiet computing environment.
