

i271m Desktop System

The i271m is a space saving yet fully featured desktop employing the latest Intel processor technology suitable for any PC application.

Equus recommends Microsoft® Windows® XP Professional.

Nobilis® i271m Desktop

Featuring Microsoft® Windows® XP Professional Edition and the Intel® 915G chipset, the i271m is an affordable solution, which, like any other Nobilis desktop, is scalable to match the performance and budget needs of your customer.

Built around the Intel Desktop Board D915GAGL, standard features include the Intel GMA900 graphic engine, a PCI Express x 16 upgrade slot, two PCI and one PCI Express x 1 expansion slot . Other features include integrated 6-channel High Definition Audio, Integrated Intel PRO LAN, four Serial ATA ports and support for two ATA IDE devices.

Capable and configurable, the i271m is a popular general application PC.

With options that feature the latest peripheral and storage technologies, this system can be tuned to meet the performance needs any desktop or embedded PC application.
