

i285m Desktop System

The i285m is a space saving yet fully featured desktop suitable for any PC application.

Equus recommends Microsoft® Windows® XP Professional

Nobilis® i285m Desktop

Featuring Microsoft® Windows® XP Professional Edition and the Intel 865G chipset, the i285m is an affordable solution, which, like any other Nobilis Pro Series desktop, is fully scalable to match the performance and budget needs of your customer.

Built around the Intel Desktop Board D865GLC, standard features include the Intel Extreme Graphics 2 graphic engine, an 8X AGP upgrade slot and three PCI expansion slots. Other features include integrated 6-channel audio, Integrated Intel PRO LAN, two Serial ATA IDE interfaces and two Parallel ATA IDE interfaces.

Capable and configurable, the i285m is a popular general application PC and part of the to the Nobilis Pro family of performance desktop computers.

With options that feature the latest peripheral and storage technologies, this system can be tuned to meet the performance needs any desktop or embedded PC application.
